Gen8

STUDYUP

Need to find a study room at the University of Victoria to prepare for an exam or to discuss a diabolical plan to turn the Petch Fountain into a bubble bath?

StudyUp has you covered with a centralized booking platform.

Team 8: Jooah Bae, Irene Duong, Mary Pesado, Randeep Laller, Lore Schwartz, Anthony Ho, Kate Ueda

Gen8 is a company that provides centralized solutions for current and future students.

Built for students, by students.

Quality. Scale. Reputation.

Tackling the real-world complexities of space-scheduling problems.

About The Client

University of Victoria

The University of Victoria is one of the largest post-secondary institutions in British Columbia.

In such a large university, it can be challenging for students and faculty to book a space.

20,000+ students
(Undergraduate & Graduate)

800+
Full-time Faculty Members

The Problem.

>> UVic's study space booking system is **decentralized.**

> Students don't have the option to filter their search.

> Some of the current systems often malfunction while attempting to book.

> The current booking systems are disconnected, incompatible and vastly different from one another.

☹ UVic students face problems in finding suitable study spaces.

Our goal: One platform that brings it all together.
